

Quality Manufacturing Services, Inc.

January 26, 2018

Article 33 of EU REACH Regulation No. 1907/2006 requires that Quality Manufacturing Services, Inc. notify our customers in case any REACH Candidate List SVHC is present above 0.1% (weight by weight) or exceed an annual one ton usage in articles we supply. Article 3(3) of the REACH regulation defines an article as "an object which during production is given a special shape, surface or design which determines its function to a greater degree than its chemical composition".

While Quality Manufacturing Services, Inc. manufactures electronic circuit assemblies containing SVHCs exceeding 0.1% in accordance to customer defined sourcing, part numbers do not exceed an annual one ton usage and Quality Manufacturing Services, Inc. is therefore exempt from REACH registration requirements.

Sincerely,

Philip P. Thurman
Director, Quality Assurance
